

## Fluance's Hi-Fi, Affordable and Beautifully Designed RT80/81 Turntables are Now Available

**NIAGARA FALLS, ON – (May 31, 2016) – [Fluance](#)**, engineers of Serious Performance, audiophile-approved home theater systems and speakers, is announcing the availability of its first turntables, the **[RT80 and RT81](#)**. Product video: <https://www.youtube.com/watch?v=1A1fm1vru98>.

Looking to make a splash in the turntable market after years of producing exceptional audio and home theater products, Fluance is releasing two new stunning turntables. The RT80 and RT81 have been meticulously engineered to deliver true high fidelity sound and bring your record collection to life. With each model not only producing incredible sound, but also standing out as an elegantly designed showpiece.

Both turntables are beautifully crafted with an audio-grade MDF wood cabinet, which incorporates isolation feet and an aluminum platter, resulting in a significant reduction in reverberation, leaving listeners with pure stereophonic sound.

The RT80 incorporates an AT91 Audio Technica stylus that produces warm rich sounds. Using these premium components allow for accurate sound reproduction, while ensuring longevity to your record collection. In terms of build, the RT80 boasts a lightweight MDF wood cabinet design. The slightly more advanced RT81 features an AT95E Audio Technica stylus and is built with a fully solid body cabinet to further eliminate vibrations.

The balanced aluminum S-Type tonearm ensures the stylus is rested deep in the record's groove, producing every audio detail indistinguishable from the original recording and creating pristine playback. The fluid movement of the bearings within the tonearm, coupled with its advanced anti-skating system, caresses each record to conserve and protect a user's beloved vinyl collection.

Additional premium components include a high-quality Texas Instruments preamp, ground terminal and gold plated RCA line outputs that ensures high fidelity sound in its truest form.

Flurance combined its extensive experience in audio engineering, signature sound and impeccable design to create its first turntables, which have excited consumers with their high-fidelity audio and

affordable price. The belt driven RT80 and RT81 produce a pure analog listening experience that transports users through a stunning adventure down the sonic spectrum.

The RT80 and RT81 are available now at [Fluance.com](http://Fluance.com) for \$199.99 and \$249.99, respectively, and are currently shipping to backers from their successful Kickstarter campaign. With Father's Day and graduation season approaching, the RT80 and RT81 are ideal gifts for music lovers and design connoisseurs.

Join the vinyl movement on social media by utilizing the #RespectTheRecord hashtag.
